

KH150FG Full Synthetic NSF H1

Part Number: 41-1-157400

Available Sizes:

400LB Drum

400g Lube-Shuttle® Cartridge

Product Description:

KH150 is a high performance, food grade grease manufactured with an advanced, proprietary calcium sulfonate complex thickener and a high viscosity polyalphaolefin base fluid, which together provide exceptional protection in a wide range of applications at varying operating temperatures. In addition, KH150 has excellent water resistance, outstanding high and low temperature performance characteristics, very high load carrying ability and remarkable rust and corrosion control, making this a true high-performance grease.

Specific Applications:

Ideal for Manufacturing Plants with bearings, bushings, and slides that operate in a wide range of temperatures.

Properties:

- Low and High Temperature Use.
- High Load Carrying Ability
- Excellent Corrosion Protection
- Designed for be a “1 grease” solution for entire manufacturing facility.

Type	Unit	Value	Standard
Thickener		Overbased Calcium Sulfonate	
Base Oil		PAO	
NLGI-Grade		2	
Color/Appearance		White	
Texture		Smooth	
Dropping Point	F	600	ASTM D 2265
Base Oil Viscosity 40°C	mm ² /s	~220	DIN 51562 ASTM D 7042
Base Oil Viscosity 100°C	mm ² /s	~25	DIN 51562 ASTM D 7042
Penetration, Worked, Working	100,000 Strokes	290	ASTM D 217
Temperature Range			
NSF Registration No./Category Code		168380/H1	

The information contained in this brochure is based on the experience and know-how of AET SYSTEMS, INC. in the development and manufacturing of lubricants and represents the current state-of-the-art. The performance of our products can be influenced by a series of factors, especially the specific use, the method of application, the operational environment, component pre-treatment, possible external contamination, etc. For this reason, universally valid statements about the function of our products are not possible. The information given in this Product Information sheet represents general, non-binding guidelines. No warranty expressed or implied is given concerning the properties of the product or its suitability for any given application.

We therefore recommend you consult an AET SYSTEMS, INC. Application Engineer to discuss application conditions and the performance criteria of the products before the product is used. It is the responsibility of the user to test the functional suitability of the product and to use it with the corresponding care.

Our products undergo continuous improvement. We therefore retain the right to change our product program, the products, and their manufacturing processes as well as all details of our Product Information sheets at any time and without warning. With the publication of this Product Information sheet, all previous editions cease to be valid.

ANY FORM OF REPRODUCTIONS REQUIRES EXPRESS PRIOR WRITTEN PERMISSION FROM AET SYSTEMS, INC.
